Aim

To provide a clear statement on the admission of undergraduates and graduates to the College.

Policy

ADMISSIONS

1. We seek to admit students of the highest academic potential, within the context of College policy on the subjects for which we admit students and the number of places available per subject.

2. At graduate level we only accept students whose subject area falls within the broad field of expertise of members of the current Fellowship. We consider applications from prospective visiting students only in subjects for which we have tutorial provision.

3. Admissions are competitive and decisions on admissions are based solely on the individual merits of each candidate and their suitability for the course they have applied to study (bearing in mind any requirements laid down by any professional body), assessed by the application of selection criteria appropriate to the course of study.

4. At no time should a connection with a Fellow of the College (or any person involved in the admissions process), a familial connection or a possible Development prospect influence any admissions decision. Details of such connections should not be communicated to any person in that subject involved in the admissions process. The information should be reported to the Tutor for Admissions in the first instance or to the Senior Tutor or Academic Registrar.

5. Decisions on admissions are made without regard to the sex, marital status, race, ethnic origin, colour, religion, sexual orientation, social background or other academically irrelevant consideration.

6. Applications from students with disabilities are considered on exactly the same academic criteria as those from other candidates.

7. We are committed to making academic study at the College as accessible as reasonably possible to all suitably qualified students.

8. Admissions procedures are kept under regular review to ensure compliance with this policy.

9. We fully endorse the University statement on Equal Opportunities.

ACCESS

1. We seek to encourage and support applications from all those with suitable academic potential and from as wide a range of backgrounds as possible.

2. We aim to promote and participate in schemes that encourage applicants to the College and the University from groups that are currently under-represented.

CONDITIONS OF ACCEPTANCE OF A PLACE

1. By accepting a place at the College, the applicant agrees to accept the terms of the Student-College Contract and accept any fee liabilities where appropriate. **International** Undergraduates and all graduates will be required to provide proof of financial support **prior to the start of their course**.

2. The offer of a college place at graduate level will be dependent on prior offer of a place by the University.

Approval

Approved by the Tutor for Admissions

Signed:  Date: 1/11/2017
