

SUMMER SCHOOL

REVIEW BY KATIE MO

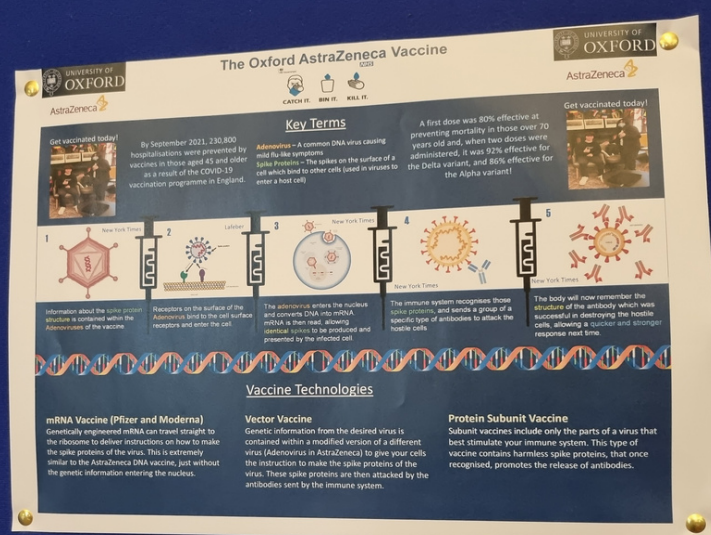

SUMMER SCHOOL 2022

Katie took part in the NWSN Summer School in June 2022. We caught up with her to see what she thought of the week and how it had impacted her after leaving school

WHAT HAVE YOU DONE SINCE LEAVING SCHOOL?

I'm currently taking a gap year and I'm doing some volunteering this year

IN WHAT WAYS DID YOUR INVOLVEMENT WITH THE NWSN IMPACT YOUR DECISIONS POST A LEVEL?

It helped me to confirm that I wanted to go to university and study a science-based course. All of the staff were extremely helpful and gave us advice on the admissions process and what to expect at university. Hearing from current students about their experiences was really useful too.

WHAT WAS THE MOST HELPFUL PART OF THE WEEK?

The tutorials and lecture-style talks really encouraged me to think creatively which is essential for any prospective student
